

Programme Fund

With the lack of local resources to purchase supplies for programme activities, and the long lead time needed to order supplies for programme classes, A \$500.00 fund will be set aside for Programme. This is not a subsidy, but a repayable budget/fund to ensure the Programme Chair or Instructor need not carry the cost of supplies which may need to be ordered well in advance of classes. This practice would relieve hesitancy on the part of members or programme chair who were not in a position to carry all the costs of materials purchased until the class kits are delivered. This fund will be paid to the programme chair annually at the Aug/Sept Executive meeting and repaid to the Treasurer annually at the May Executive meeting. If necessary the amount of the fund can be increased upon application to the OVGS executive for approval.
